| **31** | **Notes: The Beacon™ is primarily a focus point for psychic-intuitive energies, a crossroad through which very subtle energies pass and are brought into relationship with one another through a coupling factor of sensitivity and selectivity.<br>It can be used simply to relax out of beta during a stressed day. Just sit with it for a few minutes and notice what happens. Its main purpose is to contact and integrate parallel world personae, or PUPs. It has worked without the induction CD for me, but generally I use the induction. This process is quite amazing. And people? WANT this, they have been waiting for this and they are ready. It is time now to do this work.<br>Personal Beacon sessions can be booked through the Celestine Center. Induction CD's take approximately 10-15 minutes with a $5 donation. Longer sessions are available.** | | | | | |
